

ANY OTHER SUBJECT NO.6

339th meeting dt.5-4-2016

Important issues to be attended on priority.

-oOo-

8. Computerisation of end to end processes of KIADB & Karnataka Udyog Mitra under Ease of Doing Business:

The Board Members expressed that there is no professionalism in KIADB. Adhocism is rampant. Files move only when there is pressure to clear it. Officer work on whims and fancies. There are no time line for officer.

So, it is essential that each activity has to be made time bound. Officer should be made accountable for the delay.

Since all activities in Board are manual, it was decided that an end to end software shall be installed which should capture each activity. It should have time stamp on every activity under taken by an officer. All processes such as application, approval & certification shall be online.

Rather than having small stand alone software of each activity which is being done now, a comprehensive all encompassing software shall be prepared.

CEO & EM, KIADB be authorised to finalise the tender document in a professional way with the help of M/s Ideck or any other organization and to place it before the Board after opening financial bid for finalization and acceptance.
